CHEETAH SKID STEER

The first mini skid steer loader to incorporate Stand-In-the-Middle, or "SIM" design technology, the Cheetah is a breakthrough in operator safety and stability.

Placing the operator in the center of the machine allows for unmatched visibility and control. This means more precision and increased productivity.

A specialized main valve and soft return springs combined with simple twin joysticks really make the Cheetah user friendly. Even a novice is able to control with confidence and a feeling of safety.

The universal mounting plate with dual hydraulic circuits standard, allow a wide range of attachments to tackle any number of tasks.

POWERED by HONDA

VERSATILITY, STABILITY, AND VISIBILITY

Model	SS16	SS20D
Operating Weight (lbs)	1250	1350
Tipping Capacity (lbs)	1050	1200
Travel Speed (mph)	4.2	4.2
Ground Clearance (in)	6.0	6.0
Hydraulic Tank (gal)	15.0	15.0
