TIGER EQUIPMENT

MORTAR/PLASTER MIXERS

TIGER'S MORTAR MIXERS HAVE RUGGED, RELIABLE DRIVES AND FEATURE A SOLID, FATIGUE RESISTANT MAIN GEAR.

Tiger's mixers are designed to handle all of your toughest mixing jobs.

Each model is easy to operate with a well-balanced drum and a convenient front disengage that allows a smooth, controlled dump. Structural tubular steel and 2" angle iron give the T-Frame exceptional strength accessibility, and protection for the disengage rod.

Featuring heavy drum end plates, a sturdy T-frame, and a heavy-duty engine house, Tiger Mortar mixers are some of the most durable jobsite tools you will find.
