

TIGER EQUIPMENT FLOOR SAWS

The Sturdi Saws are the most durable and easily maintained push saws available.

The tough welded box design reduces vibration and provides a very stable sawing platform. This eliminates "frame twist" so common in saws of lighter construction. With the engine mounted forward on the frame, the weight is concentrated over the arbor shaft, which helps keep the blade in the cut.

The laminar flow water system optimizes water flow to the blade. This improved water system reduces spray while delivering more water. This promotes longer blade life and faster cutting performance.

POWERED by
HONDA

STURDISAW. DURABILITY REDEFINED

Model	Mini 1	Saw 1
Blade Capacity (in)	14	18
Operating Weight (lbs)	188	288
Dimensions LxWxH (in)	36x21x36	42x24x37
Blade Collar Dia. (in)	3 1/2	4
Arbor Belts	(3) cog V belts	(3) cog V belts
Wheel Diameter (in)	R-6" F-4"	R-8" F-4"
Engine Make/Model	Honda GX390	Honda GX390
Engine Power (hp)	13.0	13.0
Air Cleaner Type	Cyclone	Cyclone
Engine Type	4-Stroke	4-Stroke

The quick release blade collars make it easy to install and remove blades, eliminating arbor damage caused by inadequate tightening of the arbor nut.

Reduces overall maintenance and cost of ownership.
